

Week period in English week, from Sunday to Saturday !

The DATEFIRST default value for English logins in SQL SERVER is set to 7 which corresponds to Sunday.

To use a French week from Monday to Sunday , you have to:

Run SQL Management Studio

Check the DATEFIRST (master database):

reference to undefined name 'syntax' Une exception de type 'MindTouch.Deki.Script.Runtime.DekiScriptUndefinedNameException' a été levée. (click for details)
Set Monday as default DATEFIRST:

reference to undefined name 'syntax' Une exception de type 'MindTouch.Deki.Script.Runtime.DekiScriptUndefinedNameException' a été levée. (click for details)
Set up French language as default language for NEWTEST_REP account and the server administrator account

Restart the SQL Server (NEWTEST) service, SQL Server Agent (NEWTEST) and SQL Server Reporting Services (NEWTEST)

Check that the DATEFIRST is 1

Run a subscription job through SQL Agent and verify that your report has good data from Monday to Sunday
