

## Command Suspend failed

### Review details problem

**Context:** 741

You cannot suspend a script either from the NMC or the local observatory.

```
10:54:15.330 INFO: SCHEDULE: PRBCTRLCLIENTS:. B60 1558:3404 :: Command
"Suspend scenario Currencyconvertor" received from the server and
processed. Return code \: 0 Error code \: 3
```

### Solution(s)

Check the length of your scenario name (Max character in 741: 14)
